

Seeking OMWBE Certified Project Partners

We are adding innovative, dynamic subcontractors to our team

As a commitment to supporting the communities in which we live and work, the Michels Family of Companies seeks the services of small, disadvantaged, veteran, women, indigenous and/or minority owned businesses whenever possible.

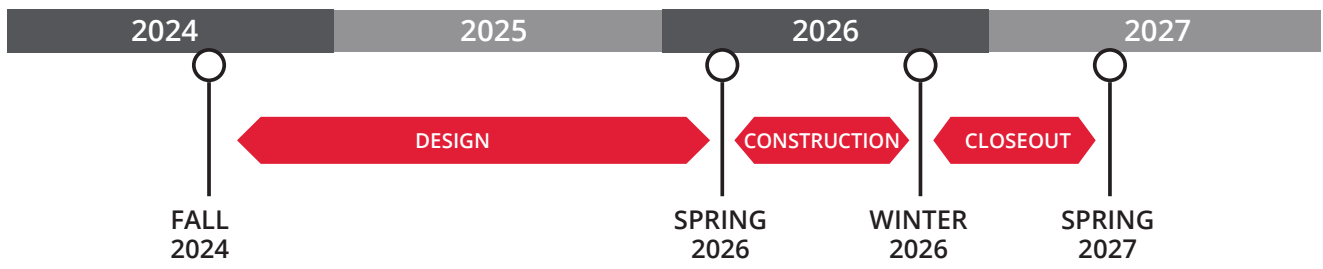

We have an opportunity for new partnerships in Northwestern Washington State.

Eastside Interceptor Section 8 Rehabilitation

The Eastside Interceptor (ESI) is one of the largest conveyance systems in King County's Wastewater Treatment Division. This rehabilitation project will repair a 1-mile span of Section 8, located between the Interstate 90 and I-405 interchange in Bellevue and the intersection of Coal Creek Parkway Southeast and I-405.
